### **GOVERNANCE**

The Insurance Council of BC has on its board more than 50% of its members who are appointed by the Lieutenant Governor in Council. It therefore designs and administers executive compensation as per its approved compensation plan as required under the *Public Sector Employers' Act*.

The Voting Members of Council monitor and review the Chief Executive Officer's performance against agreed upon objectives; approve the CEO's compensation; and approve the Compensation Philosophy and Executive Compensation Disclosure annually.

### TOTAL COMPENSATION PHILOSOPHY

The objectives of the Insurance Council of BC compensation philosophy are to support and retain individuals who demonstrate the values and skills need to achieve the objectives of the organization; attract qualified, diverse, and high-potential individuals to the Insurance Council of BC, and to support a performance-based culture by recognizing employees who achieve results and exhibit superior performance.

### **GUIDING PRINCIPLES**

The following principles guide the design, implementation, and administration of the Insurance Council of BC's compensation program:

- Performance The Compensation program supports and promotes a performance-based organizational culture.
- **Differentiation** Differentiation of salary is supported where there are differences in the scope of the position within the organization, and/or due to superior individual contributions.
- Progression Movement through approved salary ranges occurs where justified by performance. A current performance evaluation tied to performance measures and results achieved showing the required levels of performance to justify such movement must be provided and reviewed.
- **Accountability** Compensation decisions are objective and based upon a clear and well documented business rationale that demonstrates the appropriate expenditures of funds.
- Transparency The compensation program is designed, managed, and communicated in a manner that ensures the program is clearly understood by employees and the public while protecting individual personal information.

#### FI FMENTS OF THE EXECUTIVE COMPENSATION PLAN

The current executive compensation elements include:

- Salary: A base salary that is determined and approved as described in the preceding section.
- Benefits: Executives receive employer paid coverage for life insurance, extended health, vision
  care, critical illness, dental and an annual health exam. Long term disability is fully paid by the
  employee.

# **Insurance Council**

  matched to a maximum of 6% of salary. CEO receives a retirement payment equal to 12% of
  annual salary.

### **GUIDELINES FOR ADMINISTRATION**

Compensation is benchmarked to BC self-regulatory organizations created by government statute with particular focus on other financial service regulators; insurance regulators in other provincial jurisdictions of similar size and function; national financial services associations with regulatory functions; and the public sector.

## ONGOING REVIEW
